

Victory of the Palestine Action Committee: the State Council cancels the dissolution of the association.

29/04/2022 Palestine Action Committee

The State Council, by a historic decision, administered a slap in the face to the French government. Unlike the allegations of the French interior minister stating that the anti-zionist positions of the *Palestine Action Committee* could be defined as anti-semitic and as an incitement to terrorism, the State Council said that the dissolution of the association was a serious attack to freedom of expression and association.

This victory is not just ours. It is the victory of all sincere anti-Zionist activists. It is that of all those who sacrifice themselves for the liberation of Palestine.

During the hearing, the *Palestine Action Comitee* did not deny itself. It spoke loud and clear about the claims of the Palestinian people and their main organizations. It made a point of specifying, in accordance with its political charter, that the *Palestine Action Committee* supports the resistance of the Palestinian people in all its forms. He recalled the non-

negotiable
principle of the sovereignty of the Palestinian, Lebanese,
Afghan peoples...

It was an
honor for the Palestine Action Committee to express before the
judges the
intolerable situation of our comrade Georges Ibrahim Abdallah
and to recall the
Zionist massacres, emphasizing those of Sabra and Shatila.

We would
like to sincerely thank all our supporters, in particular the
Unitary Campaign
for the Liberation of Georges Ibrahim Abdallah and the
International Solidarity
Movement.

Finally, we would like to dedicate this victory to the
Palestinian people and their struggle. This struggle is our
compass and we will not deviate a single iota from it.

Strength and Victory to the Palestinian People!
